900 Series

Sliding Door Series

Hinge Door Series

Pivot Door Series

Sliding Doors Products feature:

1. The single sliding doors are designed with a soft closing function, which can be the pride of the place where ever it is fitted.
2. Sound quality rollers and soft closing mechanism makes the doors slide smoothly and quietly.
3. Our Internal sliding test on the rollers is open - close 100,000 times which is far more than the required normal standard of 20,000 times.
4. Concealed design makes these sliding doors more elegant and higher class. No screws can be seen for the whole product.
5. Shinning chromed metal handle is born for these products. It is classic and has the quality feel.
6. Durable PVC seal at the bottom and magnetic strip at the door side will ensure the shower enclosures water tightness.
7. Besides chromed aluminum profile, there are other finishes for your choice like white or electro-coating.
8. Moreover, the glass can be applied with mirror effect coating to satisfy the individualization demand.

Hinge Doors Products feature:

1. Ocean always holds the concept 'Innovation and idealism' when designing. The hinges used on these doors are the latest designs with luxury and fashionable features, combined with simplicity.
2. Linear hinges are new to the market, meaning it fits flush to the inside out side of the glass, which makes the products easy to clean and stands with this desirable feature.
3. The advantage of the hinge door is it gives the biggest opening in all the door ranges which in turn makes them very convenient and easy to enter.
4. Another design feature of these doors is the small and exquisite aluminum profiles.
5. We surely understand the importance of good quality hinges. From the raw material to the finished hinge, we all have a very high standard. The tests have been performed on this hinge are, salt spraying, bearing test and water test. Also before fitting to the shower door, we will arrange 100% quality check on the surface and function.
6. Moreover, these hinged doors can be equipped with protection film, which can adhere to the glass with out imperfections giving the ultimate protection against a shattering screen.

Pivot Door Products feature:

1. These pivot doors are equipped with the latest pivot system-simple and elegant. The mechanism of these pivot doors is separate top and bottom pivot axis, which is novel from the standard whole axis profile. Another example showing Ocean's designers are good at innovating and breaking through.
2. The pivot moldings are made of high density zinc alloy to ensure the stability and safety of these doors.
3. The tests have been performed on this pivot are, salt spraying, bearing test and water test.
4. The pivot doors can be opened both outward and inward, which is very convenient and maximize the door opening.
5. For the aluminum profile finish, the client can choose from chromed, white, satin and electrocoating. The profiles used are of high hardness up to 13-14 degree and purity up to 95%.
6. These natures facilitate the quality of profiles to avoid the brittle and bowing problems. Tensile Strength, yield strength and elongation percentage are much higher than national required standard.
7. Let's dig in and find more about these pivot doors.

Specialized shower trays

Easy plumbing kits installation diagram

40 mm height abs stone trays with fashion anti-slip surface

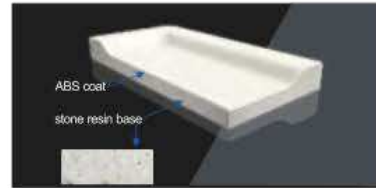

TR Series Tray

Products feature:

1. Ultra-precise polished surface, with a very smooth and durable surface.
2. Different sizes available, bespoke styles and sizes are available.
3. Passed 500kg load test.
4. New style waste kits, with better water flow.
5. New style feet, easily installed design.
6. Customers can cut the tray to any sizes.

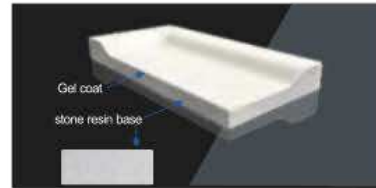

Ocean always keeps the spirit of making innovations and never give up. Due to the continuous efforts Ocean has spent on the research and development on shower trays, Ocean has finally designed a new generation of shower tray. Comparing with the old ones, the new shower trays are more stable on the color and shape, bearing capacity is over 500 Kgs. The ultra thin figure of the new shower trays also makes them more simple and fashion, and the concealed shower waste design can even be the milestone on the shower tray design.

T4 series materials: ABS coat and stone resin base

Deodorization hidden waste, it looks simple and fashion

T5 series materials: Gel coat and stone resin base

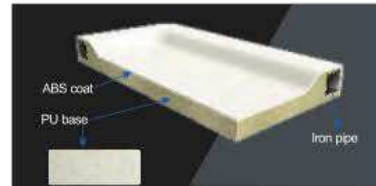

Breakdown drawing of the waste. Drainage rate of the waste: 31L/min

Adjustable legs to balance the tray when the floor is uneven.

Breakdown drawing of the leg.

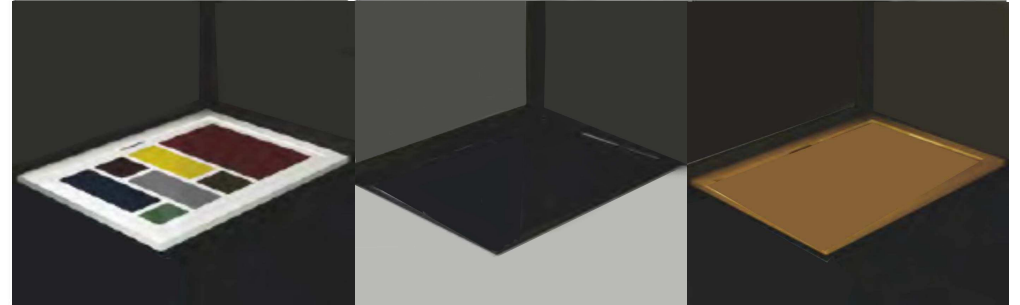

T6 series materials: ABS coat and PU base

Specialized shower trays

Life orientation and we high value design on every aspect. Ocean always has the concept of innovation and rules breaking, you will feel Ocean is not only doing products but also pursuing beauty. Combined with a lot of colors and patterns, original products will be more specialized, fashionable and make life more enjoyable.

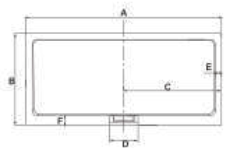

Anti-slip board

Black, gray and white colors are available, customize the other colors as you like.

Feature: With excellent thermoplastic, high resistance against impacts, good flame retardant and color unchangeable.
